Trade
List

Spring
1906

OUR SALES OF THIS GREAT ROSE WILL REACH 100,000.

New dwarf ever-blooming Crimson Rambler. (Madame Norbert Levavasseur.) This is the Rose that has set not only America, but all of Europe talking. It has created a commotion in the Rose world that no other Rose has ever approached, and it is without question a decidedly sensational variety. It is identical in every way with that wonderful Rose, Crimson Rambler, except that it is a dwarf, bushy grower and is a true ever-bloomer. It is in bloom all the time, flowers in large clusters of brightest crimson. It grows to a height of 18 inches and hides the plant with its bloom. A most wonderful Rose. A prize winner. It has taken the following prizes: The Grand Silver Medal at Paris; first-class certificate of merit by the National Horticultural Society in France; first-class certificate by the Royal Horticultural Society of London; first-class certificate by the National Rose Society of England; Gold Medal by the Horticultural Society of Orleans. Gold Medal at St. Louis. Two and one-half inch pots, 60 cents per dozen, \$5.00 per 100, \$45.00 per 1,000; 4-inch pots, \$3.00 per dozen, \$25.00 per 100.

PROPRIETORS

The LARGEST ROSE GROWERS IN THE WORLD

Why Our Rose Trade is By Far the Largest in the World Because Our Roses Grow and Bloom

Under our method of propagation—which is a natural one—growing during the growing season and resting during the non-growing season, we produce a Rose that can have no superior. This is evidenced by our largely increasing trade. Once a customer always one. Sometimes a customer of ours will be led off by cheaper prices, but they invariably after the trial come back to us, our prices being as low as first-class Roses true to name and carefully packed can be produced and sold for. Cheaper prices than we quote always mean cheaper Roses. We invite correspondence on large orders. Mail us your list of needs giving the varieties and quantities of each you will need and we will give you the very best prices at which first-class stock can be sold.

OUR TERMS OF SALE

Conditions.—The plants named are offered at the rates quoted, provided that not less than ten of each variety are taken at the hundred rate, not less than 250 at the thousand rate, nor less than three at the dozen rate. No order will be filled from Plant List for less amount than \$2.00.

Substitution.—Under no circumstances will we substitute unless privileged to do so by purchaser. Customers will save time to give second choice of any variety should we be out of their first choice.

Packing.—To far off points many customers have the soil removed from the roots of Roses and then wrapped in damp moss, thereby saving express charges. Customers who desire their Roses packed in this way will so state when they order.

WE MAKE NO CHARGE FOR PACKING.

Unknown Correspondents.—Orders from unknown correspondents must be accompanied by the cash, or satisfactory reference. If ordered sent C. O. D., one-third the value of the stock called for must be remitted with the order. We make no deviation from this rule, as at the very low rate offered we cannot afford to run any risk. This rule will be strictly adhered to.

Complaints.—No complaints will be entertained unless made immediately on receipt of goods.

Remittance should be made either in the form of Money Order, Bank Draft, Express Order or Registered Letter. Remittances in any other way are entirely at the sender's risk. Personal checks not accepted from unknown correspondents. Where known correspondents send checks they must add 25 cents extra to each check for exchange.

Shipping Facilities.—Having the rival express companies—Adams, American, National, Pacific, United States and Wells Fargo—these companies charge one through tariff rate over their own lines and have working arrangements with the Southern, Great Northern and Northern Pacific Express Companies, thus insuring you the lowest possible one through rate without the usual custom of charging two or more local rates where goods are handled by two or more express companies; thus we can reach almost any point in the United States by express at one rate, insuring our customers the lowest express charges.

New Low Express Rate.—We call your attention to the new low express rate, which is a reduction of 20 per cent. from the regular merchandise rate at which plants have been expressed heretofore, and also that packages of less than 100 pounds are billed at 100-pound rates. The express charges do not have to be prepaid to secure this reduction.

Plants Prepaid by Express.—To patrons in California and other far-off points we make a specialty of packing plants so as to make the expressage light, the expressage when prepaid being eight cents per pound. So, if you wish to avoid expressage, when the rate is high, add one-fifth additional to your remittance, and we will prepay same through to destination.

Plants by Express.—All goods are sent by express unless otherwise ordered.

Plants by Freight.—Perishable plants sent by freight are at the risk of the purchaser. We will not be responsible for any loss or damage.

◆ port to us at once. We believe in liberal count,
◆ careful labeling and light, secure packing.

Some of the Newer Roses

In this list are included the newer Roses of all kinds that after we have given a test, we consider have merit. The number of new varieties of Roses introduced from all parts of the world will average about 100 per year. After a thorough test from five to ten sorts each year will come up to the mark, as being worthy of cultivation. The Roses listed here are well worthy of a trial, having such decided merits as to guarantee them a permanent place among the very best of Roses. Varieties suitable for forcing are so designated.

ANGELA WELTER

(Tea.) Flower large, very full, creamy white, the center shading to yellow; free and fragrant; a magnificent variety, reminding one of Kaiserin in many ways. The tea blood assures it more constant bloom. Well worth a trial. Two and one-half inch pots, 25c each, \$2.00 per dozen.

BABY RAMBLER

For description see 1st cover page. Two and one-half inch pots 60 cents per dozen, \$5.00 per hundred; 4 inch pots \$25 per hundred.

CONRAD FERDINAND MEYER

(Hybrid Rugosa.) This is a grand new Rugosa Rose. It has more of the characteristics of the Hybrid Perpetuals than of the Rugosas; a vigorous grower, free bloomer; flowers large, perfectly double, cup-shaped, deep rose in color, with the penetrating deep fragrance of the old June Roses. We predict for this Rose that it is the forerunner of the ideal Rose. It is ideal except for the fault of dropping its foliage like the Hybrid Perpetual Roses. Do not fail to plant this grand Rose. 2½-inch pots, \$2.00 per dozen, \$15 per hundred.

CLIMBING CAPTAIN CHRISTY

(Hybrid Noisette.) A climbing form of Captain Christy; flower and foliage are identical. It is a most beautiful Rose in every way. Two and one-half inch pots, \$1.00 per dozen.

CARDINAL

(Hybrid Tea.) This is a grand new Rose introduced by Mr. John Cook. The buds and flowers are large and double and the color is a rich deep red. From our first season with it we believe it will be a fine addition to our red Roses. Two and a half inch pots, 75c per dozen, \$5.00 per 100.

CLIMBING MAD. CAROLINE TESTOUT

(Climbing Hybrid Tea.) A most wonderful Rose, an exact counterpart of that grand Rose Mad. Caroline Testout, except that it is a vigorous climber, bright clear pink in color. Two and one-half inch pots, \$1.00 per dozen.

GRUSS AN ZABERN

(Rambler.) A fine hardy ever - blooming climbing Rose. The flowers are extra large, perfectly double and delightfully tea scented, color rich creamy-white, one of the most beautiful Roses in existence. Two and one-half inch pots, 25 cents each, \$2.00 per dozen.

GENERAL MACARTHUR

(Hybrid Tea.) (Forcing.) Color by far the most brilliant of any shade of crimson forcing Rose ever offered, retaining its brilliancy when fully expanded. It is also one of the very sweetest varieties ever offered; of very easy culture, as it can be grown in the same temperature as an ordinary Tea variety such as Bride. It can be grown at much less cost than Meteor or Liberty and is of a much brighter color than either; also larger when fully expanded. Two and one-half inch pots, \$1.00 per dozen, \$6.00 per 100.

HELENE WELTER

(Hybrid Tea.) Exquisite large flowers, color light rose, outer petals deep carmine with broad, dark edge; center coppery-yellow. Constant and abundant bloomer. Two and one-half inch pots, 25 cents each, \$2.00 per dozen.

IDEAL

(Hybrid Tea.) A new Rose of this year. A most beautiful pink Rose; a big flower that will sell as a "fancy." This variety has been a favorite in the Philadelphia cut-flower market the past season; of the La France type, but of a brighter shade of pink, and brings a very large percentage of heavy canes and big blooms. Forces readily. Two and one-half inch pots, 75 cents per dozen, \$6.00 per 100.

KATHERINE ZEIMET

(Polyantha.) A most beautiful Polyantha Rose, blooms very regular, of a pure white color; very desirable. 20 cents each, \$1.50 per dozen.

LEONIE LAMESCH

(Polyantha.) This is a very peculiar Rose; it opens bright red and changes to golden-yellow, and always shows the two distinct colors at one and the same time. A good strong grower and altogether a fine Rose. Two and one-half inch pots, 20 cents each, \$1.50 per dozen.

LA DETROIT

(Hybrid Tea.) (Forcing.) The new Detroit Rose, which has been so largely exhibited and advertised. Shell pink shading to soft rose; reverse of outer petals cream colored; fragrance like that of old Bon Silene. In form it is large, cup-shaped; petals shell-like. Rich, glossy foliage; a rampant, vigorous grower, producing long shoots, and we believe a fine Rose. Forces well. Two and one-half inch pots, 60 cents per dozen, \$4.00 per 100.

MADAME ANTOINE MARIE

(Tea.) This is a grand Rose for the garden and lawn and sure to give satisfaction. It is a clean, handsome grower, and resembles in this respect that famous old variety, Marie Van Houtte. An early and profuse bloomer, both buds and flowers are extra large and beautiful. The form resembles a nice Camellia bloom. Color creamy-white, flushed with rosy red. First-class in every way. Two and one-half inch pots, 25 cents each, \$2.00 per dozen.

O. A. SINGER

(Hybrid Tea.) A fine garden Rose of clear carmine color, deepening to the center of the flower. It flowers very continuously and freely, especially fine in spring and autumn. This grand variety was sent out by Mr. Peter Lambert, the great German rosarian, and named by him in honor of Mr. A. Singer, the Oberhofgartner of Bad, Kissingen. Two and one-half inch pots, 25 cents each, \$2.00 per dozen.

PERLE VON GODESBURG

(Hybrid Tea.) This is the yellow sport from Kaiserin Augusta Victoria, identical in all points save color. It is a beautiful Rose. Center is pronounced yellow, outer petals white. This Rose has decided merits. Two and one-half inch pots, 75 cents per dozen, \$5.00 per 100.

ROSALIND ORR ENGLISH

(Hybrid Tea.) (Forcing.) New pink seedling from Mme. Chateaux is unapproached in color; the bud is pointed, quite full, borne on long, slender stems, beautifully set with foliage, free in growth and bloom; the flower is very beautiful from its earliest bud form till fully expanded. Was awarded certificate of merit at the Chicago show. Two and one-half inch pots, 20 cents each, \$1.50 per dozen.

SOME OF THE NEWER ROSES.—Concluded.

RICHMOND

(Hybrid Tea.) (Forcing.) This is the best red forcing variety yet produced. It is of strong and rapid growth, more vigorous than any other forcing variety in commerce. It comes to perfection without special care or culture and can be grown in the same soil and temperature and with the same treatment given to Bride and Maid. It ships perfectly, as it can be cut very tight and develops as well off as on the bush. Has very near the same tone of color as Liberty, with more scarlet, and does not blue with age. This variety is nearly a pure Tea, being seeded from Lady Pattersea, fertilized by Liberty, and as a result has shown no tendency toward going dormant in mid-winter, at which time the variety is at its very best. Produces freely throughout the year, long pointed buds on tall, straight stems with elegant dark foliage. Is as easy to root and grafts as readily as Bride or Maid. Has as delicious a fragrance as American Beauty. Was awarded the silver cup at the St. Louis World's Fair for best seedling Rose, and a special silver cup at Chicago for best seedling. Two and one-half inch pots, 35 cents each, \$2.50 per dozen.

STRIPED REINE MARIE HENRIETTA

(Md. Driout.) (Climbing Tea.) As the name implies, this is a sport from the old favorite, R. M. Henrietta, has the splendid vigorous climbing habit of the mother Rose, while beautifully striped, flamed and shaded in bright carmine over pale rose. The markings are very regular. A superb Rose and will rank with Reine Marie Henrietta, the premier climbing red Rose. Two and one-half inch pots, 25 cents each, \$2.00 per dozen.

NE PLUS ULTRA

(Weigand's Crimson Rambler.) Crimson Rambler, "Ne Plus Ultra." This new Rose comes from Germany. The introducer describes it as an improved Crimson Rambler, a little fuller in the flower, a little deeper in the color, but the most marked improvement is in the habit, which is much more branching than is Crimson Rambler, forming a fine bush or shrub on which the foliage can hardly be seen for the blooms. It comes into flower from ten days to two weeks earlier than the parent. 25 cents each, \$2.00 per dozen.

ROSES

Two and one-half
inch Pot Roses.

Roses of the type usually known as Ever-Bloomers, embracing Teas, Hybrid Teas, Bourbons, Chinas, Etc., including the newer varieties, giving the merits and demerits of the different Roses as we may know them. We would thank our customers or any rosarian, either amateur or professional, to write us in reference to any Rose that does well, or otherwise, in their particular locality. There are very few Hybrid Tea Roses that are not suitable for general or wide cultivation, as they are usually our very best Roses. Varieties suitable for forcing are so designated. We offer two sizes of most of the varieties of Roses, 2½-inch pots and 4-inch pots.

ADMIRAL DEWEY

(Hybrid Tea.) (Forcing.) A strong grower, semi-double flowers of the Testout type; white, faintly tinged pink.

ADMIRAL SCHLEY

(Hybrid Tea.) This is called by some the red Burbank. It blooms freely. The color is a rich, fine red.

AGRIPPINA

(China.) Strong grower, free bloomer, color bright red, medium size. Planted out in some localities for Summer cut Roses.

ALLIANCE FRANCO-RUSSE

(Tea.) In warm weather the color is yellow shading to salmon. In the cool fall nights comes pink, always pretty. A fine Tea Rose.

ANTOINE RIVOIRE

(Hybrid Tea.) Here we have a Rose that can be talked about, and when you have said all in its favor that you can think of, you have still left something unsaid. It is a vigorous grower, with fine-shaped buds and flowers, colors salmon flesh in center to the edge of its petals shading to a creamy-white, with a delicate pink tinge. No other Rose we know of is either like it in color or make-up—the color is so fresh and clean. A No. 1 in every respect.

ANTOINE VERDIER

(Hybrid Tea.) Good grower and very free bloomer; color glowing pink shading to rich crimson; fine bedder.

APRICOT

See Souvenir d'Elise Vardon.

ARCHDUKE CHARLES

(Bourbon.) Opens red, changing to silvery pink. Admired in some localities.

AURORA

(Hybrid Tea.) A new Rose that has come to stay. Very strong grower, free bloomer, color bright glowing pink, deeper than La France. This is a finer pink Rose than either Mrs. John Laing or Mrs. R. G. Sharman Crawford, and all who know these famous varieties know that they are hard to beat. It has the true deep penetrating fragrance of the Hybrid Perpetuals and is the sweetest of all Hybrid Tea Roses. It is a beauty from every point of view, and can be best described as grand, superb. You will make no mistake in growing it.

BESSIE BROWN

(Hybrid Tea.) A Rose of transcendent beauty, totally distinct, and one of the largest and fullest we have ever seen. Color pure white, sometimes faintly flushed pink. Petals enormous and of shell shape. It is really marvelous that such large flowers can be so freely produced.

BEAUTY OF STAPLEFORD

(Hybrid Tea.) Good grower and bloomer. A beautiful Rose with fine shaped buds and blooms. Color rosy-crimson shading to pink.

BON SILENE

(Tea.) (Forcing.) An old-time favorite that everybody knows. Strong grower, good bloomer, fine buds, color crimson-rose, forces well.

BOUGERE

(Tea.) Good grower and bloomer. In many localities the best general purpose pink. In warm weather it sometimes comes with green centers and of medium size. Fine in both Fall and Spring.

BRIDESMAID

(Tea.) (Forcing.) This is a superb pink Rose for outdoors and for forcing. More of it is used than all other pinks combined. We rank it next to Maman Cochet. In some places it is ranked first, having a more refined flower than Maman, the latter growing so immense in size as to be deemed coarse when compared with Bridesmaid. It is hard to beat.

BURBANK

(Bourbon.) Strong grower, making a fine, bushy plant; free bloomer, almost as free, if not as free, as Hermosa; color cherry-rose. Both the color and build of the flower is fine. It only lacks size of flower to be classed as No. 1 extra. A fine Rose for the nursery trade.

CAROLINE MARNIESSE

(Bourbon.) A fine growing hardy Rose, useful in the North. The small bluish-white flowers are produced in large clusters. Its worth lies in its hardiness and free-blooming qualities.

CATHERINE MERMET

(Tea.) (Forcing.) This is a fine pink Rose, a good grower and bloomer. For out-of-doors Catherine Mermet is one of the very best pink Roses.

CHAMPION OF THE WORLD

(Bourbon.) A vigorous growing hardy Rose. Blooms well. Color same as Hermosa, but flower is larger.

CHRISTINE DE NOUE

(Tea.) A Rose producing fine buds of rich red or deep rose.

CLARA WATSON

(Hybrid Tea.) Good grower and bloomer. The flowers are very graceful, buds on long stems, color salmon-pink, holds its color well. In style of Madame Welch when open.

CLOTHILDE SOUPERT

(Hybrid Polyantha.) Here we have a Rose that for bedding outdoors or for pot culture is hard to beat. We have seen the entire foliage of the plant hidden with bloom. It is of medium size and variable in color from almost pure white to deep pink. Then again it comes bi-colored with these two colors combined in the same bloom and always pretty.

COUNTESS DE FRIGNEUSE

(Tea.) Light yellow, with a soft shade inside of petals.

COUNTESS EVA STARHEMBERG

(Tea.) Color creamy-yellow, shading to ochre at the center, borders of the petals touched with rose.

COQUETTE DE LYON

(Tea.) A light colored yellow Rose, free bloomer.

(Tea.) Called the Magnolia Rose. Buds pretty; color creamy-white, with rose center.

DOUGLAS

(China.) Dark cherry-red.

DUCHESS OF ALBANY

(Hybrid Tea.) This Rose is simply a La France, only several shades deeper in color, being a lovely shade of deep rose or pink. Often called the red La France. Superb in every respect.

DR. GRILL

(Tea.) Coppery yellow, medium sized flowers.

DUCHESS DE BRABANT

(Tea.) This Rose combines exquisite perfume, beautiful coloring and matchless profusion of flowers. A soft, light Rose with a heavy shading of amber-salmon.

EMPRESS EUGENIE

(Bourbon.) One of the sweetest of all pink Roses. It is a prime favorite in the South.

ENCHANTRESS

(Tea.) A very strong growing Rose. Color creamy-white, tinged buff.

ETOILE DE LYON

FRANCIS DUBREUIL

(Tea.) This is a red Rose that is admired in certain localities. Vivid crimson with rich velvety shadings.

GOLDEN GATE

(Tea.) (Forcing.) This is one of the really meritorious Tea Roses, a strong grower, flowers of fine large size, buds beautiful, color shell pink, shading to creamy-flesh on outer petals.

GRUSS AN TEPLITZ

Or Greeting of Teplitz. (Hybrid China.) As a bedding Rose this is one of the finest and most useful varieties ever sent out. Many of our customers who bought it the past two years are realizing its value and singing its praises. It will take rank with Hermosa or Souper. The color is brightest scarlet, shading to deep, rich, velvety crimson.

HELEN GOULD

Or Baldwin. (Hybrid Tea.) This is probably the most beautiful and satisfactory Rose for general planting ever introduced in America. It should be called the Red Maman Cochet. The flowers are full and perfectly double, the buds beautifully made, long and pointed. The color is a warm, rosy-crimson.

HELEN GAMBIER

(Hybrid Tea.) Deep orange yellow shading to copy yellow and then to almost white on the outside row of petals. Fragrance as strong and penetrating as a Sweetbriar. A very distinct and beautiful Rose.

HERMOSA

(Bourbon.) An old favorite. It is always in bloom and always beautiful. The flowers are cupped, finely formed and full. Color the most pleasing shade of pink, soft, but deep. The best market rose grown.

IVORY, OR WHITE GOLDEN GATE

(Tea.) (Forcing.) This is a fine forcing Rose of pure ivory white, an exact counterpart of Golden Gate except the color. Out of doors the blooms come ivory white; does not pink the least bit. So if you want a really white Rose for outdoor planting, try this one.

J. B. M. CAMM

(Bourbon.) New. Growth much like that of a strong H. P. Blooms very large, extremely full of petals, always showing a pointed center, color pure pink, fine bedder.

JULES FINGER

(Tea.) Long buds of rosy-scarlet.

KAISERIN AUGUSTA VICTORIA

(Hybrid Tea.) Strongest growing, freest blooming, most perfect flowers of the Hybrid Teas. Large fine buds of pure white. Does not pink up when planted out, best white for all seasons. Superb. It will be very difficult to produce a finer Rose than this charming variety.

LADY BATTERSEA, THE RED NIPHETOS

(Hybrid Tea.) This charming new Rose is a strong grower, free bloomer, beautiful buds of enormous length for a Rose, equaling the old Niphotos in length of bud, lovely wine-red color.

LADY CLANMORRIS

(Hybrid Tea.) A grand Rose and perfectly distinct. Blooms very large and of good form; petals large, smooth, and of great substance. Deep peach with lighter edges, has beautiful buds. This is a cracker-jack. Do not fail to try it.

LA FRANCE

(Hybrid Tea.) (Forcing.) No variety can surpass it in delicate coloring—silvery rose shades, with pink. It has a satin sheen over all its petals. It is universally regarded as the most useful of Roses, as it is hardy. It blooms continuously, and is first-class in every respect.

MADAME E. DURANTON

(Hybrid Tea.) A new Rose and a very unique colored Rose of a beautiful yellow, tinged with pink.

MADAME ERNEST PERRIN

(Tea.) A good grower, free bloomer, immense buds and bloom. Very double. This is an extra fine Rose. Try it.

MADMOISELLE GERMAIN TROCHON

(Hybrid Tea.) Creamy-white, with carmine center. This is a good Rose and a very beautiful one.

MADAME JULES GROLEZ

(Tea.) Fine red color flushed with silvery-pink, a Rose that flourishes well over a wide area; always in great demand.

MADAME SCHWALLER

(Hybrid Tea.) A strong grower, blooming in clusters; fine large buds and roses of a bright pink, delightfully fragrant. A very desirable Rose.

MADMOISELLE CECILE BERTHOD

(Tea.) Most beautiful, both in bud and flower, which is deep golden-yellow. In fact, the deepest yellow in color of any Rose we grow. It is a fine bloomer and should be planted by everyone. Altogether a grand Rose, and always in bloom.

MADMOISELLE FRANCISKA KRUGER

(Tea.) This is a Rose for the millions to plant. It is a vigorous grower, very free bloomer and, while the color is variable at different seasons of the year, it is always beautiful. In warm weather it takes on lovely red shades, while in cooler weather it turns to a deep, coppery-yellow, always pretty in every stage of development.

METEOR

MAMAN COCHET

(Tea.) The Pink Cochet. No finer Rose than this. The color is a deep rosy-pink, the inner side of the petals being a silver-rose, shaded and touched with golden-yellow. Nothing in the Tea family approaches it in size except White Maman Cochet. For Summer cut flowers it is a wonder. Deliciously fragrant.

MAGNAFRANO

(Tea.) Color bright, rich red, full, double and fragrant.

MOSELLA

(Hybrid Polyantha.) A very fine bedding Rose; the color is chrome-yellow in the center, shading to creamy-white on the edges of the petals.

MRS. DEGRAW

(Bourbon.) Strong grower, color bright coral pink, larger flower than Hermosa. In blooming qualities it takes precedence over Hermosa and Champion of the World, which follow in order named. Hardy and fine.

MRS. R. B. CANT

(Tea.) A beautiful new Rose on the style and color of Papa Gontier. It is a free grower and free bloomer. This is a Rose that will become a standard variety. We think very much of it.

MRS. ROBERT GARRETT

(Hybrid Tea.) The buds are long and pointed in shape, and open up beautifully into a full, rounded flower. Color a glowing shell pink, very deep in the center; the fragrance is delicate and pleasing.

PRINCE OF BULGARIA

(Hybrid Tea.) Beautiful in form of bud, flower very large and full. The outer petals are extremely large, of superb rosy flesh color, center of flower bright red, very fine and very free. First prize at the Paris Exposition. Very much like a superb Carnot in form.

QUEEN'S SCARLET

(China.) Same style as Agrippina. Bloom is larger and the color a clearer red than in that variety.

RED HERMOSA

(Bourbon.) A fine blooming red Rose of the Hermosa type; fine for pot culture.

RED CHATENAY

(Hybrid Tea.) A fine new Rose of our own introduction, of the style of Madam Abel Chatenay. The color is much deeper, being a soft shade of red; very pretty.

ROSOMANE GRAVERAUX

(Hybrid Tea.) Of the general style of President Carnot, with an enormous long bud producing a very large, double, open flower carried on a long, stiff stem; the petals are very large. Color silvery-pink with reverse of rosy-flesh. Very fragrant and very free.

SAFRANO

(Tea.) (Forcing.) A strong grower and an old favorite, a bright apricot yellow, changing to orange-fawn. Very much esteemed; forces well.

SANGUINEA

(China.) A fine bedder where a show of red is desired, as it is always in bloom.

SILVER KING

(Bourbon.) The bud and flower are of the largest size when fully expanded, cup-shaped, full and double, but the petals are so arranged as to not crowd one another. The color is a clear shell pink.

SNOWFLAKE

(Tea.) Strong grower, pure white flowers, does not pink. A fine bloomer, medium sized flowers, fine Rose to grow in nursery.

SOMBREUIL

(Bourbon.) Beautiful white, tinged with delicate rose. A very strong growing border Rose, an old-time favorite.

SOUVENIR DE CATHERINE GUILLOT

(Tea.) Good grower and bloomer. The freest blooming Tea Rose, producing a long pointed bud of the color of Austrian copper, flushed with rose, by far the best of the high-colored Roses. This is a beauty. Must be seen to be appreciated.

SOUVENIR DE ELISE VARDON

(Tea.) This is an old-time favorite, and goes under the name of Apricot in the South; and in California under the name of Laurette. It is a grand Rose, growing vigorously and blooming freely. Color apricot.

SOUVENIR DE PRESIDENT CARNOT

(Hybrid Tea.) (Forcing.) The flowers are large, full and double, exquisitely shaped, with heavy, thick, shell-like petals. The buds are wonderfully beautiful—long and pointed—perfection in every line. The color is a new, delicate fawn; shaded a trifle deeper at center of flower. Fragrance delicious, strong grower and free bloomer, has no weak point. Will become one of the most popular of all Roses.

SOUVENIR DE PIERRE NOTTING

(Tea.) The bloom is very large, perfectly full, of elegant form—has a beautiful long bud; the colors are very bright, distinct, and clear, and have no unpleasant tones—yellow, flushed light peach. Promises to prove very popular. Has received not less than six gold medals and prizes. This is a fine new Rose. Try it.

SOUVENIR D'UN AMI

(Tea.) A fine, delicate rose, shaded salmon.

SOUVENIR DE MAD. ANTOINE REBE

STRIPED MALMAISON

(Bourbon.) A striped sport from old Souvenir de Malmaison. Color a creamy-white, with rose center, reverse of the petals striped violet and light rose.

STRIPED LA FRANCE

(Hybrid Tea.) A fine Rose, identical in every respect with its parent, La France, except the flowers are beautifully striped, and shaded a delicate white. The coloring is exquisite, and we think this Rose will please. It produces magnificent large buds and flowers.

SUNRISE

(Tea.) (Forcing.) In close bud form it shows the high, brilliant colors seen only in the Austrian copper, scarlet and yellow. As it opens the color deepens, the scarlet turning darker red, the yellow to orange and copper, inside of petals golden-yellow. Large, perfectly double and of grand form.

SUNSET

(Tea.) (Forcing.) The color is a remarkable shade of rich, golden-amber, elegantly tinged and shaded with dark ruddy copper, intensely beautiful and resembling in color a splendid "afterglow."

SYLPH

(Tea.) Pretty as a fairy, as its name implies; flowers ivory white with clear rose center, exquisitely beautiful and richly tea-scented. Particularly desirable for outside planting.

THE BRIDE

(Tea.) (Forcing.) It takes rank with White Maman Cochet, only smaller in size. Out of doors it is a strong grower, free bloomer. Color pure white, outer petals pink. Under glass this is a pure white Rose, forcing well; also a fine garden Rose, as the pink it takes on out of doors does not affect its beauty. Should be planted by all.

THE QUEEN

(Tea.) Pure white flowers; produced freely, makes fine plants.

TRIUMPH DE LUXEMBURG

(Tea.) This is an old-time favorite with beautiful flesh colored bloom.

TRIOMPHE DE PERNET PERE

WHITE BON SILENE

(Tea.) This elegant variety is valued for its buds, which are identical with Bon Silene, except in color, which is creamy-white.

WHITE BOUGERE

(Tea.) For open ground planting it has no superior. Flowers unusually large, deep, full, double, long, stiff stems, and borne throughout the season in great abundance. Color pure ivory white. Never pinks. Very beautiful.

WHITE LA FRANCE

(Hybrid Tea.) This is a most beautiful Rose, ranks with La France, in color a fawn white, of the true La France type. Superb.

White Maman Cochet.

WHITE MAMAN COCHET

(Tea.) The flowers are of enormous size, remarkably round and full, pure, clear, snowy white throughout when grown under glass; when grown out of doors it pinks like Bride, but the pink only adds to its beauty, and it is delightfully tea scented. It is by far the finest and most reliable bedding Rose yet produced. Anyone can have the very finest Roses for cutting all Summer and Autumn by planting a few plants of it. It is, without doubt, the largest Rose, both in bud and flower.

WHITE MALMAISON

Crown Princess Victoria. (Bourbon.) New. The color is a pure waxy snow white, sometimes has a lemon tint, never pinks, and to those who desire a fine double flower when fully expanded, this will meet their wants, as it is very beautiful when full blown.

YELLOW COCHET

Or Madame Derepas Matrat. (Tea.) The color is a good sulphur-yellow on first opening, changing to a delightful rose color as the flower gets age, when it takes on this rose shade. Blooms very large, perfectly double, splendid form and freely produced. It has every quality necessary to make the ideal yellow bedder, ranking with the White and Pink Cochet in value as a Summer Rose.

Price of the above Roses, 2½-inch pots, 50 cents per dozen, \$3.00 per hundred, \$25.00 per thousand; 4-inch pots, \$1.25 per dozen, \$10.00 per hundred.

CLIMBING DEVONIENSIS

(Cl. Tea.) It is fully as productive as the bush sort, and, being more vigorous, is justly a grand Rose. White, tinged with blush. Very sweet.

CLIMBING CECILE BRUNNER

(Cl. Polyantha.) Flowers perfectly double and delightfully fragrant; color a rosy-pink on a rich creamy-white ground.

CLIMBING MALMAISON

(Cl. Bourbon.) This is identical with the old Malmaison, except that it is a vigorous climber. This is already a fixture in our list of climbing Roses, from its decided merits.

CLIMBING HERMOSA

(Setina. (Cl. Bourbon.) Identical in every way with Hermosa, except being a rampant climber. This is an old Rose of great value; perfectly hardy and should be planted largely for its many meritorious qualities.

CLIMBING LA FRANCE

(Cl. Hybrid Tea.) Identical in every respect with La France except its climbing habit. It has the fault of reverting to the bush form.

CLIMBING METTEOR

(Cl. Hybrid Tea.) The brightest colored of all Roses. Climbing Meteor is the acme of all red climbing Roses. It is a free, persistent bloomer, and will make a growth of from ten to fifteen feet in a season. It is just the Rose to train up to the veranda or around windows, where its great beauty will show up to advantage.

CLIMBING PAUL NEYRON

Madame Wagram. (Pillar Rose.) Paul Neyron has always been known as the largest Rose extant. In Climbing Paul Neyron we have this large size, coupled with its bright, fresh pink color that no Rose excels. More of a pillar Rose than a climber. This Rose is a wonder.

CLIMBING CLOTHILDE SOUPERT

(Cl. Hybrid Polyantha.) The new Climbing Clothilde Soupert stands at the head of Hardy Climbing Ever-Blooming Roses, and is unequalled for quick and abundant bloom and healthy, vigorous growth. The flowers are 2½ to 3 inches across, and perfectly double; rich creamy-white, sometimes tinted with blush and borne in immense profusion the whole growing season, from June to November.

CLIMBING WHITE PET

(Cl. Polyantha.) This Rose is quite popular where it is known and deservedly so. It is a rampant climber, bearing its pure white flowers in immense clusters. Very fragrant.

CLIMBING WOOTTON

(Cl. H. T.) It is a sport from that famous Rose, Souv. de Wootton, and is identical with it except that it is a strong, rampant climber, and producing in wonderful profusion its superbly formed flowers, which are bright magenta red, passing to violet-crimson, richly shaded.

CLIMBING MARIE GUILLOT

(Cl. Tea.) The flowers are magnificently made, extra large and deep and double. The buds are particularly beautiful and the fragrance delightful. The color is pure snow white, sometimes faintly tinged toward the center with pale yellow.

CLOTH OF GOLD

Or Chromatella. (Cl. Tea.) A clear golden-yellow, large, very full and double, highly fragrant. Highly prized in the South for pillars and verandas. We have the true variety. Solfaterre is many times sold for Cloth of Gold. They are entirely dissimilar Roses. Cloth of Gold is golden-yellow, while Solfaterre is a much lighter yellow Rose. We have the true variety.

ELI BEAUVILLIAN

(Cl. Tea.) A fine free-blooming climber, bearing lovely flowers of a salmon-fawn color much in the style of the old Gloire de Dijon.

ESTELLE PRADEL

See Zelia Pradel.

GAINSBOROUGH

(Cl. Hybrid Tea.) We are very proud to bring this fine Rose to the notice of all rosarians, be they amateur or professional. It originated with us four years ago, since when we have given it the most thorough trial, and we are fully convinced that for a hardy ever-blooming climber it has no equal. For beauty and size we place this variety at the head of the Hybrid Teas. The foliage is an exact counterpart of its parent, Viscountess Folkestone. Its delicate colors are hard to describe, being delicately tinted flesh, almost white, and lustrous as satin. When in full bloom it resembles a large, fine, white, fluffy peony, but without a suggestion of stiffness, often measuring eight to nine inches in diameter. An enthusiastic admirer describes it as a Rose reminding him of a beautiful girl wearing a light colored Gainsborough hat, ornamented with white ostrich plumes. Hence the suggestion of its name. Be sure and try this grand Rose. It makes the prettiest plant in the field of all Roses.

GOLD OF OPHIR

Ophire. (Noisette.) Nasturtium-yellow, suffused with coppery-red. One of the most beautiful of the climbing Roses.

LAMARQUE

(Noisette.) Large, full flowers, borne in large clusters, pure white and double. A most beautiful Rose. A rampant climber.

MARY WASHINGTON

(Noisette.) Its flowers are of medium size, pure white, perfectly double to the center, sweet, and borne in endless numbers in large clusters all Summer. Vigorous and rapid grower. One plant of Mary Washington will produce more flowers and buds than a dozen ordinary Roses. Its fragrance is tinged with the old-fashioned musky flavor so much admired in olden times.

MARECHAL NIEL

(The World-Renowned Rose.) (Noisette.) A beautiful, deep sulphur-yellow, very full, very large and exceedingly fragrant. It is the finest yellow Rose in existence. It has a climbing habit, and where it is permitted to grow until it has attained a large size, as it will in a few years, it yields thousands of beautiful golden-yellow flowers. Especially desirable in the South. We sell annually fifty thousand of this Rose alone. This is the best known of all Roses.

PILLAR OF GOLD

(Cl. Tea.) New. The most vigorous climber in this section, produces large, double buds and flowers of perfect form. Color, rosy-pink, base of petals yellow, a free bloomer and an extra fine Rose in every detail. To all our Rose patrons in the South and Pacific Coast we recommend you to plant Pillar of Gold.

WILLIAM ALLEN RICHARDSON

(Noisette.) A fine Rose in every way. Deep orange-yellow center, outer petals lighter yellow.

WHITE MARECHAL NIEL

In its habit of blooming in immense clusters, it is remarkably like Crimson Rambler, but the flowers are of a beautiful shell pink color and hold a long time without fading; even after they commence to fade the color is still pleasing, being then a lovely deep rose. Second, it is perennial, blooming better and more abundantly each season. Third, it is not so particular as to soil. Fourth, it blooms for several months. Fifth, the flowers are extremely large and graceful, averaging about four inches in diameter, with petals of the purest glistening whiteness, which are borne on single, long, stiff, wiry stems. NEPHROLEPIS**PIERSONI ELEGANTISSIMA**

The New Ostrich Plume Fern—The character of the frond is well shown in the photograph on this page, although the picture conveys but a slight idea of the grace and beauty of the feathery, plume-like fronds, which more nearly resemble the graceful ostrich plume than anything else in nature to which we can compare them. One has to see a plant in growth to appreciate its beauty and value. The fronds grow broad and heavy, measuring at least six inches across when fully developed, increasing in beauty as they develop. On account of the weight of the foliage, the plant assumes an exceedingly graceful appearance and, owing to the fullness of the fronds, even small plants are well furnished, making much more symmetrical and beautiful plants than the Boston Fern. The divided pinnae, or the miniature fronds, keep growing constantly, showing two distinct shades of green, the ends being a light green, while the center and main parts of the fronds show a dark rich shade, the contrast producing a very beautiful effect, greatly enhancing the beauty of the plant. It is wonderfully valuable, not only on account of its beauty, but also on account of its ease of culture, hardiness and general adaptability. It has all the free-growing hardy characteristics of the Boston Fern, and, like that plant, is equally suitable for house culture, and a much more beautiful plant for greenhouse and conservatory decoration. In fact it is a plant that appeals to everyone, and on that account will prove a much more valuable and profitable plant than the Boston Fern, which has had the most phenomenal sale of any decorative plant that has ever been grown, but which cannot be compared to the Ostrich Plume Fern for beauty or general effectiveness. Everyone who has seen it is charmed with it. As some one has expressed it, "There is nothing like the Ostrich Plume Fern in cultivation. In decorative effect it so far outdistances the original variety that there is positively no comparison to be made. We consider it the most valuable novelty that has been introduced in many, many years." It has taken gold medals wherever shown. Fine young plants from 2½-inch pots, \$2.00 per dozen; \$15.00 per 100.

Price, 50 cents per dozen; \$3.50 per 100; \$30.00 per 1,000.

NEPHROLEPIS EXALTATA

This is the old-fashioned Sword Fern, and many prefer it to the newer varieties. It is of upright growth, makes handsome specimens, and is fine for planting in vases, etc. 2½-inch pots, 50 cents per dozen; \$3.00 per 100.

BOSTON FERN

Nephrolepis Exaltata Bostoniensis—In the vicinity of Boston no other plant is so extensively used as this graceful Nephrolepis, which differs from the ordinary Sword Fern in having much longer fronds, which frequently attain a length of six feet. These arch and droop over very gracefully, on account of which it is frequently called the Fountain Fern. This drooping habit makes it an excellent plant to grow as a single specimen on a table or pedestal. 2½-inch pots, 50 cents per dozen; \$3.00 per 100. 4-inch pots, \$2.00 per dozen.

NEPHROLEPIS PIERSONI

THE WONDERFUL JAPANESE FERN BALL

This novelty from Japan we take great pleasure in introducing as one of the most satisfactory house Ferns ever offered. One was started last January and its beautiful leaves and color attracted the attention of all who saw it until August, when it was placed in the cellar to rest. The center is moss covered with Fern roots in a very ingenious manner, looking like a ball of small roots twisted together. After watering, they start into life, and in a short time are covered with a mass of beautiful green foliage. If desired, they may be allowed to dry up, which is very convenient when a person goes on a summer vacation. They may be started again by simply watering as before. When growing they should be watered two or three times each week. If desired, they may be cut in halves and placed in a Fern dish. The ball, before it is started, is six to ten inches in diameter. We only handle the "Nagaha" long-leaved variety; the common variety only produces short fronds. 25 cents each; \$2.50 per dozen.

Nothing that has ever been brought to our notice in the plant line has caused half the commotion that this wonderful Lemon has. It is a true ever-bearing variety. On a plant six feet high no less than eighty-nine of these ponderous Lemons were growing at one time. It was a beautiful sight to see. The tree was blooming, and at the same time had fruit in all stages of development, from the size of a pea up to the ripe fruit, showing it to be a true ever-bearer. Fruit has been taken from this tree weighing over four pounds. The Lemons have very thin rind for such large fruit. It is the juiciest of all Lemons, makes delicious lemonade, and for culinary purposes cannot be excelled. It is not uncommon to make twelve lemon pies from one Lemon. We have the entire stock of this ponderous Lemon, and guarantee the trees to produce the same large fruit. No budding or grafting necessary. Ponderosa Lemon is sure to become popular when it is known. It fruits when quite small, and makes a lovely house plant. Everybody can grow their own Lemons. It will fruit freely the second year. Thrifty young plants, 50 cents per dozen; \$3.00 per 100. Large plants, four-inch pots, \$1.50 per dozen; \$12.00 per 100. Extra large plants, 3 to 4 feet high, 50 cents each; \$5.00 per dozen.

Paeony—Officinalis

HERBACEOUS PAEONIES

The Paeony is well named the supreme triumph of floriculture. They are absolutely hardy everywhere, even up to the Arctic circle they grow and flourish, blooming profusely in the remotest corners of the American continent. They have no insect enemies and live and grow into greater beauty each year. They are handsome garden ornaments, blooming in the springtime when flowers are scarce, and nothing excels them as cut flowers. Cut the stems as the buds first show color, placing the stems in water in a cool place and see them open and develop. Nothing in the whole range of the floral kingdom is so gorgeous and beautiful. Our collection embraces over one hundred and fifty thousand plants of the choicest varieties. We grow them by the field full, having acres of them planted. We make a specialty of the paeony.

TIME TO PLANT

Paeonies should be planted in the fall. September is the best time, although October and November planting give good results, as do the spring months, but do not expect bloom the first year from late fall and spring planting.

The varieties of Paeonies offered here will be ready to ship from September on. Place your order now and have the roots reserved for you.

Price given is for roots of two to five eyes. We have bought paeonies of a number of the leading growers of the country and find no roots that compare to our growing, our soil being particularly adapted to them. You can either order by number or name, our numbers being permanent.

HARDY SCOTCH, or SWEET MAY PINKS

These are the Pinks of our mother's gardens. They are dwarfer than the Carnation, growing about one foot in height, the color being of the various shades of maroon, carmine and rose, beautifully laced and banded on white ground. The flowers are perfectly double, clove scented, and the plants will stand out of doors year after year, being entirely hardy. 40 cents per dozen; \$3.00 per 100.

PITTOSPORUM TOBIRA

Instead of the thin flowers, which were limited to lilac and white colors, we now have gorgeous flowers, combining all the different tints of rose, carmine, red and purple, to say nothing of the pure whites and salmon, with their distinct eyes. Perfectly hardy everywhere. Ten sorts of the most elegant varieties. 50 cents per dozen; \$3.50 per 100.

NEW HARDY PINK, HER MAJESTY

Hardy Pink, Her Majesty.

The Carnation of late has become the most popular cut flower with the exception of the Rose, and the one drawback to its cultivation by the masses of flower lovers is the fact that it is not quite hardy. We have at last a perfect substitute for it in this grand and new hardy Pink, one of the finest novelties of the century. It is quite hardy, needs no protection, and blooms profusely in the months of May and June. The flowers are pure white in color, very double, and borne on long stiff stems and possessing the exquisite clove scented fragrance of the true Carnations, while it rivals them in size and substance. THOMPSON'S ROSE NICOTINE

Thousands of lovers of flowers and plants have been so discouraged in their efforts of growing them, due to the ravages of the Rose Bug and other insects, that they have given up in despair. Many have tried Paris Green, Hellebore, Kerosene Emulsion, Tobacco Water, Soaps and Dust and some proprietary products without effect, unless used strong enough to kill the plant or if fairly effective the odor, or if a powder, has been so disagreeable as to prevent its use.

Equally as much trouble with insects is experienced in raising fruit or growing vegetables and viewed from a financial standpoint it is of greater importance. Something should be used as an insecticide that is odorless and leaves no residue or sediment after spraying and such a product is found in Thompson's Rose Nicotine, which makes an odorless, colorless and "death to insect" spray. It is acknowledged by entomologists to be the most powerful and safe insect and parasite destroyer known and is used by the U. S. Department of Agriculture.

To use most economically, spraying should be done quite frequently and regularly after the plants are free from insects, rather than wait until again infested. When applied to badly eaten and insect-covered plants, vegetables, fruit trees or bushes, all insects will be destroyed at once (unless in extremely bad cases where a second spraying may be necessary), and healthy plant life promptly restored. No harm can be produced in spraying.

Thompson's Rose Nicotine cures mange on dogs, kills fleas, lice and ticks on dogs, cats and chickens.

No guaranteed household bug killer was known until the introduction of Thompson's Rose Nicotine and being free from odor, colorless and stainless, makes it all that could be desired. Not only is it valued for killing such insects as bedbugs, roaches, carpet bugs,

moths, house ants, etc., but it is most valuable to use as a preventive in packing away clothes and protecting furniture and carpets, more especially when house is closed.

Moths, Bedbugs, Carpet Bugs, Roaches and their respective eggs; Lice and all household insects can be exterminated by fumigating with Thompson's Rose Nicotine Fumigator. The vapors of this fumigator penetrate all parts of a room and its contents, which means instant death to insects the moment it is inhaled, and on the eggs it is deposited and absorbed, thus destroying them. Unlike sulphur, etc., its fumes are harmless to texture, paper, silver, etc., but best not inhaled by person. This fumigator is a boon to the housekeeper, hotel keeper and any one who is bothered with house insects; and we all suffer this affliction in our life time and not our fault either.

Guaranteed to do just what we claim for it, as its merits have been tested beyond a doubt.

OUR GUARANTEE.

On presentation to us of a written and signed statement that Thompson's Rose Nicotine or Fumigator does not kill insects or parasites as claimed, your will be refunded.

We, however, direct your attention to the fact that as insects are always in the air, your flowers, vegetables, etc., may again become infested after once getting them clean, therefore we do not guarantee to keep them clean forever. This also applies to dogs and cats, when again exposed to lousy animals.

Always spray the under side of leaf where the insects live.

Thompson's Rose Nicotine is put up in 25-cent (makes 1½ gallons spray) and 50-cent (makes 6 gallons) cans, and the Fumigator is put up in 25-cent boxes. The Fumigator can be used to fumigate plants to kill insects. Price, put up in cans in two sizes, small size, 20 cents box; \$2.25 per dozen. Larger size, 35 cents per can; \$4.00 per dozen. Can only be sent by express.
